WILSON DEMOCRATS HEAR DEFENSE OF ADMINISTRATION

MEETING DEVELOPS INTO HOT
POLITICAL DEBATE BETWEEN
DAVIS AND POPE

Administration Democrats held their first meeting here last Saturday which was addressed by W. C. Davis of Bryan in defense of the National Democratic Administration.

The meeting developed into one of the hottest political debates ever held in Cameron when John W. Pope of Dallas took the platform following the address of Mr. Davis and spoke in the interest of the candidacy of Bailey for Governor and scored the Wilson administration.

Mr. Davis replied to Mr. Pope in fense of the record of the Democratic party during the period of Mr. Wilson's administration. Though Mr. Davis had spoken for nearly an hour he took the platform and made an able defense of the administration.

No debate of the issue had been arranged as Mr. Davis was secured to address a meeting of the Administration forces but the Bailey Club scheduled a speaking for the same day and after Mr. Pope's speech the meeting resolved itself into a joint discussion.

The meeting was opened with an address by T. S. Henderson who reviewed the legislative and war record of the administration.

Mr. Davis was introduced by U. S. Hearrell and Mr. Pope was introduced by W. A. Morrison.

The meeting will be held in the District Court room and Mr. Looney will speak at 8 o'clock. The meeting will be held under the direction of the Administration Democrats who have formed an organization in this county.

The Goodyear Tire & Rubber Company has completed arrangements with the Brazilian government for the erection of a South American factory to be located outside the city of Rio Janeiro.

Construction of the foundations has already begun and it is believed that the factory will be completed within a year and a half. The factory group will consist of four buildings built to allow four buildings built to allow for adequate expansion. At first 1,000 employees, mostly Brazilians, will operate the plant, which will probably have a capacity of about 1,500 tires and tubes a day.

Training of the personnel that will be sent to Brazil from Akron as the skeleton organization will be started within the next few weeks. In accordance with its policy, Goodyear will allow employees to make application for connection with the South American factory and those selected will be enrolled in classes for instruction in Portuguese, the language of the country.

The output of this concern will be pneumatic and solid tires, and also mechanical goods similar to the lines now manufactured in other Goodyear factories.

Negotiations for the purchase of a site were begun two years ago with the Brazilian government, but were broken off by the entrance of the United States into the world war. Difficulties in obtaining shipping facilities caused the postponement of negotiations until recently.

Acquisition of the South American factory marks another step in the expansion policy of the company, which already has already has plants in Akron, Los Angeles and Toronto, Canada.

STEPHEN SLADE DEAD

(Special to Herald.)

Milano, Texas, April 14.—Stephen Slade, aged 81 who settled on Cowskin Creek, seven miles from Wichita, Kansas, in 1873 when Wichita had 100 people and who visited his nephews at Marlow School in 1877, died at his farm on April 7, at 4 p. m.

Mr. Slade's farm became quite valuable and his estate was valued at \$50,000 at the time of his death. George Homes of Weldon, Texas, was with him when he died, but Chas. Howes of Milano, could not be with him on account of his duties at the post office in Milano.

Mr. Slade was a consistent Christian and had been a member of the Methodist church for 63 years.

Miss Winnie Henderson is visiting her brother, Mr. Law Henderson in Bryan this week.

WILL BUILD ROAD THROUGH TO MILANO

CITIZENS OF MILANO MEET
WITH COMMERCIAL CLUB
FRIDAY

A movement has been started by the Cameron Commercial Club in conjunction with Milano citizens to improve the road from that city leading to Cameron.

At the last meeting of the Club the matter was presented by the good roads committee with Giles L. Avriett as spokesman.

J. O. Newton, Walter Newton and W. A. Beard, representative from this county to the Legislature, made up the delegates from Milano. It is proposed to pay one-fourth of the construction cost out of the road bond funds of the Milano District. It is thought that a part of the special supplemental bond money recently voted in Cameron will be applied to pay that portion needed from the Cameron district and if necessary to raise by subscription the remaining funds needed.

The Milano committee was given assurance that the road will be constructed. The road to be constructed is 8-2-10 miles bordering the two districts. Both Federal and State aid will be secured for the road and a committee has been appointed to take the matter up with the Highway Commission at Austin.

State Fire Marshal S. W. English is insisting that every Texas City be thoroughly cleaned before the hot summer winds come to make the fire hazard so great. City Fire Marshal Ed Adams will co-operate in this work and is asking the aid of the people of this city who have their town's welfare at heart.

"There is no telling what fire will cause a conflagration similar to that at Grandview," said the City Fire Marshal. "We are not protected from fire any better than was Grandview and we are no luckier. We have the same cases of defective electric wiring to cause the fire and the same shingle roofs to spread it over the city and the same high winds."

"But we have example of Grandview and other cities to warn us to prepare for fire; to fight it before the match is struck; and if the people of this city will co-operate in the work we can make Cameron reasonably safe from all dangers."

"It is necessary that we have a spring clean-up campaign at once and prepare for summer and its fire dangers. No rubbish should be allowed to collect in alleys and back yards nor should old boxes and barrels add to the dangers in the business parts of town."

"I am going to ask the women's clubs to co-operate with the city in this work, for in other Texas towns the women are the ones who accomplish most at cleaning up. But the business men must do their part and even the children in the schools can aid. A clean city means a healthy city, too, and we have two reasons for this spring clean-up."

"The State Fire Marshal's Office in co-operation with the women's clubs will endeavor to reduce the fire loss in Texas by 50 per cent per capita within the next ten years, and the people of Cameron must do their share."

Mrs. Emily Swift is the guest of her daughter, Mrs. Oxsheer Smith.

J. C. EDWARDS

Mr. J. C. Edwards was born in Montgomery County, Texas, Dec. 29, 1876, and lived there till the time of death, which occurred in Galveston Feb. 10, 1920, following an operation.

Early in life he united with the Methodist church, and lived a consistent and useful member. On Sept. 1, 1894 he was married to Miss Lena Gregory, daughter of Rev. J. B. Gregory and sister of Mrs. Monroe Walker of Friendship of Milam County.

To this union were born two children, Florine and Cora Belle.

He was buried in the old family grave yard in Montgomery county. He was a useful citizen, a devoted husband and father, a loving brother, and a loyal son.

May heaven's richest blessings rest upon his sorrowing family, kindred and friends.

TEMPLE SYNDICATE WILL DEVELOP
J. C. DAVIS
ACREAGE

Showing the transfer of 115 acres of land from J. C. Davis of this county to the Dixie Winner Drilling Company at Temple, papers were filed for record with the County Clerk here Saturday closing one of the most important oil lease deals recorded lately in the Tracy shallow field.

This tract of land, situated in the heart of the now famous Tracy shallow oil field in the southern part of Milam county, has been one of the most sought after pieces of ground in Texas of late, but due to the fact that there existed technical complications in the title, it has never been transferred before. Hundreds of the representatives of as many oil companies have applied to Mr. Davis for this tract, but the scout of the Temple concern seems to have been the first man to reach him with the required amount of money when the technicality was finally cleared away, and he returned to Temple last night with the lease, properly signed and recorded.

The land immediately adjoins the producing field of the Texas Eagle Producing & Refining company, a ten million dollar company headed by Frederick A. Cook, of North Pole fame. The tract already has one producing well on it, and it is understood that the Temple company will immediately place a number of rigs to work and fully develop the property both for the shallow and deep oil.

The consideration shown in the transfer was \$11,500 cash and one-eighth royalty on all production.

You will see the big Pickford Film "Pollyanna" at the Wonderland, Tuesday, April 20. This is one of the most favored of Miss Pickford's productions.

It has every facility for health recreation, such as swimming pool, tennis courts and there is a large rest camp established in New Braunfels, Texas, where over one hundred men go each week in trucks for hunting, swimming, boating and fishing.

They are offering a chance to enlist in a motorized regiment. Courses are provided in the following subjects: English, Arithmetic, Spelling, Geography, History and other Elementary Subjects, Stenography, Book-keeping and Typewriting, Automobile, Truck and Motorcycle Driving and other automotive subjects, Printing, Photographing, Lithography, Music, Sign Painting, Electricity and Drafting, Carpentry, Plumbing, Horse-shoeing and Cooking. Also several other subjects and trades.

A word to the ex-soldiers of Cameron and the surrounding country: Victory Buttons may be obtained from any one of this party by applying to them with your discharge. The Victory Button is a beautiful bronze button issued by the government, and the men that were wounded in France are entitled to silver button. Men may enlist for one (1) year in the field artillery with or without previous service. You may enlist for foreign service in Alaska, Panama, Hawaii, and also for service on the Mexican border.

See them while they are here and ask for any information about the New Democratic Peace Time Army.

If you have not seen Nazimova in "The Brat" you have not yet witnessed one of the real triumphs of this famous screen star. It will be shown at Wonderland Friday, April 23rd.

NARROW ESCAPE

Monday afternoon, three girls, Misses Neppie, Neston, Florence Butts and Blanch Gore were in Mr. J. W. Gore's car. Miss Neppie was learning to drive and while coming around the corner at the New Cameron Drug Store the car ran into her cousin, Billy English on his wheel. The wheel was completely demolished, the boy was taken to the Sanitarium, but was found to be only scared.

MRS. SHEPHERD.

Betsy Lane Shepherd, who will give a concert in Cameron on April 27th, has many amusing things happen to her, as do all stars much in the public eye.

The other day, she says, a friend of hers heard one of Mrs. Shepherd's songs on an Edison RE-CREATION. The number was entitled "Is It Nothing to You," and Mrs. Shepherd sings it with the utmost feeling.

The next time this friend saw Mrs. Shepherd she said:

"Oh, I heard such a beautiful record of yours the other day! I liked it so much that I not only bought one for myself, but sent two or three to my friends!"

Mrs. Sheppard was much pleased naturally. "That was very nice of you," she said gratefully, "which song

was it?"

"I'm not quite sure," the lady replied, "but I think it was 'Does it Make Any Difference.'"

BAILEY DECLARES HE IS IN RACE TILL LAST VOTE CAST

FORMER SENATOR SAYS HE
WILL DISCUSS STATE IS-
SUES SOON

Dallas, Texas, April 13.—Answering reports which he declares have been circulated accusing that he will retire from the race, former Senator J. W. Bailey today issued a statement in which he says he will stay in the race until the last vote has been counted.

Until after the May conventions Mr. Bailey says he will pay attention to national issues altogether.

Statement by Bailey.

Mr. Bailey's signed statement follows:

"Those who are opposing us are industriously asserting, sometimes in public, and more frequently in private, that I do not desire the office of Governor, and that I will withdraw from the race after the presidential precinct conventions are held, whatever their result may be. One purpose in making that assertion is, of course, to discourage my friends by inducing them to believe that they may be left without a candidate who espouses their views, and another purpose is to insinuate into the minds of men whom they consider ignorant a belief that I have some ulterior motive in making this race.

"I am not anxious to assume the great responsibilities which attach to the governorship, but I am sincerely anxious to rescue the Democratic party from the control of those who are deliberately divorcing it from its great principles and I became a candidate purely and only because it was the unanimous judgment of my friends that my candidacy would mostly clearly present the issues between the fundamental principles of democracy and the modern heresies which our opponents call 'Progressive Democracy.' In order that every Democrat who feels an interest in that question might have a fair opportunity to express himself upon it, we propose to the committee managing the opposition that it should be submitted to a primary election, instead of the precinct conventions.

"We believe—indeed, we know—that at least five times as many Democrats would express themselves at a primary election as will be able to do so in precinct convention. It could be otherwise; because, in establishments where four or five men are employed, all can not leave their business at one time, as they must do in order to participate in a precinct convention, but each of them could go at some time during the day to cast his or her vote in a primary election. What is true of the business men, is true also of the farmers. Even if they go to their precinct conventions, the politicians may prolong its sessions so that many of them must leave in order to attend to their work at home before a vote is ever taken; and knowing that may happen, thousands may not go at all, though they would cheerfully take the time to vote at a primary election.

"If a primary election had been agreed to and the Democrats of this State had rejected the Fort Worth declaration of principles, I would have

TUESDAY, APRIL 20th

There are people everywhere who are drugging themselves with all sorts of medicine, who need nothing but a new viewpoint of life, a new comprehension of the power of happiness that is within themselves and in others, a new knowledge of how to find the bright side even under the darkest trial, of how to effect regeneration through words of cheer and encouragement, of how to generate a spirit of resignation, even of gladness, through the thought that sore as the affliction is, hard as is the deprivation, it could have been worse. What they need is the Pollyanna Treatment as portrayed by

promptly announced my withdrawal as a candidate for Governor, because, even if I desired the office, I would not accept it, though it might come to me without a contest, unless I was authorized to administer it upon what I consider sound principles. The refusal of the other side to agree to a primary election, has convinced me that they want this issue decided by the politicians instead of by the people, while we want it decided by the people instead of the politicians. If our friends attend the precinct conventions, as I hope and believe they will, we will carry eight out of every ten counties in this State, but whatever may be the result this contest to

the end of the gubernatorial campaign, in order that the people may have a fair chance to decide between the principles which we advocate and the principles advocated by the opposition.

Did you ever stop to think that modern industrial concerns contain postoffices as large as many cities in the United States?

For instance The Goodyear Tire & Rubber Company receives and answers from 15,000 to 18,000 letters a day—as much mail as would be handled by a postoffice in a city of 30,000 people.

At this rate nearly 6,000,000 pieces of mail are received and sent out every 12 months.

EXPERIENCE PROVES QUININE IN CAPSULES UNRELIABLE

Several years ago a doctor called at my drug store and stated that he was getting no effect from quinine given in capsules to Mrs. ——. I answered "This is reasonable as quinine in capsules as well as pills and tablets is sometimes passed by the patient unchanged. Upon investigation he found this to be the case with this patient and was compelled to give quinine in liquid form to get any results." J. C. Mendenhall, 46 years a druggist, Evansville, Ind. Mendenhall's Chill & Fever Tonic is in solution quickly absorbed by the stomach so pleasant to the taste that children will ask for it. Made with and without arsenic. Sold by Avera's Drug Store.

THE GARDEN LADY'S STORIES

(Written for the United States School Garden Army, Bureau of Education, Department of the Interior.)

The Enchanted Princess Who Lives In Every Garden.

"What does this mean?" said Big-Sister-Peggy, who is in High School—"Sweet are the uses of adversity, Which like the toad, ugly and venomous,

Bears yet a precious jewel in its head."

"We are reading it in our Shakespeare at school, and our teacher said we must be able to tell her about it to-morrow."

The Garden Lady smiled and the mischievous little dimple that came and went near the right-hand corner of her mouth showed itself for just a moment. Then she said, "I'll tell you a story and perhaps that will help to explain about the precious jewel borne by the toad."

And so she did, and this is the story she told:

"One evening last summer, just between sunset and dark, I was sitting all by myself on the bench under the old Apple Tree in the Golden Girl's Garden."

"Oh!" said Tommy Thoughtful, "did the Scarecrow tell you another story?"

"Yes," said the Garden Lady, "several stories."

"Goody! Goody!" cried Jane "then you can tell them to us."

The Garden Lady nodded smilingly and went on with her story, thus:

"I was on the bench under the old Apple Tree, just between day and night, you know, when things look different from plain, daylight things."

"Suddenly I felt that some one was sitting beside me on the bench. I blinked my eyes and saw—our old friend, the Scarecrow."

"I opened my mouth to say 'Good evening,' but I got no further than 'Go-o-'"

"Shh," said the Scarecrow very softly, lifting one finger and giving me a sort of wink, which seemed to mean that he was quite friendly. 'Sh! It's the Speaking Hour for creatures, and one of them wants to talk to you.'"

"I don't know why I looked down but I did, and I saw at my feet a little squatting figure, all humped up and warty."

"Oh-o-oh!" gurgled 6-year-old Billy Smart, "a hoppy-toad, Garden Lady?"

The Garden Lady nodded, and Jane said, "Oh, a toad; one of the garden aids, who hides in the brown earth and watches for garden foes!"

Then the Garden Lady went on with her story and said—"The Scarecrow whispered to me and said, 'The Little Princess—her castle is over there in the rocky back of us, where the far-crow—the Enchanted Princess!'"

"The 'The Princess!' I whispered!" but the Scarecrow laid his finger on his pumpkin mouth.

"Now," continued the Garden Lady, "The toad was looking at me with its wonderful jewel-like eyes, dark-bright you know, a sort of gold-green-black like deep little wells, full of star-light."

"Oh," murmured Big-Sister-Peggy, "Bears yet a precious jewel in its head."

"Yes," said the Garden Lady, smiling softly.

"Garden Lady," said the toad, in a deep, sweet-sounding voice, as it looked steadily at me with its sad, bright eyes, "I want you to tell my story to the boys and girls of the United States School Garden Army."

And here is the story that the toad, clad in soft shades of dull sage green and gray and faint pale yellow, told to the Garden Lady, as she sat under the wise old Apple Tree in the Golden Girl's Garden:

"Long, long ago, in the Land of Once-Upon-A-Time, there lived a beautiful Princess. People said she had the most beautiful eyes in the world! When one looked into her eyes one felt and saw wonderful things. She was very good, too, that Princess. That is, she wanted to be good. But she had one fault, a bad fault, and a big fault. She was too proud. She was proud of her beauty, and she was proud of her goodness. Look in my eyes, Garden Lady, and you will see her."

The Garden Lady looked steadily into the deep little wells of the toad's jewel-like eyes, and as she looked an

image seemed to come, to grow larger and plainer until it rose into the air, swayed just above the tossing plumes of the growing corn. The image was that of a beautiful princess, clad in a long, floating robe of shining white, girdled with gleaming jewels. Her dark hair fell back from her face to far below her waist, and seemed to mingle itself with the twilight shadows. But in her eyes was a look of great sadness. They were like the toad's eyes grown to human size, but full of love and sadness. In a little while the picture faded, and the toad went on speaking:

"Now, it was not right for the Princess to continue in her pride. She should have had the True-Beauty and the True-Goodness, which I hope all the little soldiers in the United States School Garden Army have, and so a spell was laid upon the Princess and she became enchanted."

"You remember, Garden Lady, how centuries ago Aesop told of the frog and the ox. That frog was too proud you remember. Aesop said that an ox grazing in a swampy meadow chanced to set his foot among a number of young frogs, and crushed nearly all of them to death. One that escaped ran off to his mother with the dreadful news."

"Oh, mother," he said, 'it was a beast, such a big, four-footed beast, that did it!'"

"Big," said the old frog, 'how big? Was it as big?'—and she puffed herself out—"as big as this?"

"Oh, a great deal bigger than that."

"Well, was it so big?" and she swelled herself out yet more.

"Indeed, mother, but it was," said the little frog, "and if you were to burst yourself, you would never reach half its size." The old frog made one more trial, determined to be as big as the ox, for she was jealous, and unwilling that any creature should be larger than she, and in her last effort she burst herself.

"Well, Garden Lady, one night the Princess of whom I have told you had a fit of jealous anger because someone had praised a princess of a neighboring country. She did not let anyone know how she felt. She was too proud for that, but she ran to her own room and looked at herself in her mirror of polished silver. As she looked her beautiful face, which was all burning with hurt pride, began to change. It grew suddenly grayish brown and flat. Her mouth lost its rosy color, and took on a queer shape. Her lovely clothes dropped from her. Her figure became, humped and small and squat, and her skin grew rough and warty. She was so ashamed and frightened that she ran, or rather hopped, out of the palace into the garden, and hid in the shrubbery."

HISTORY OF MENDENHALL'S NUMBER 40 FOR THE BLOOD

Forty years ago an old doctor was putting up a medicine for diseases of the blood that cured the worst cases and time proved that the cures were permanent. After many years I secured the prescription, being a druggist, and took each ingredient separately and referred to my U. S. Dispensatory and other authoritative books on medicine and found the medicinal properties set down as follows: "A specific in its influence upon all glandular structures of whatever character, it is also a blood making remedy of great power. Acts directly upon the skin and is indicated in eczema, itching, sores, ulcers, pimples and skin eruptions of whatever character. Employed in chronic rheumatism, catarrh, constipation, stomach, kidney and

A TRIBUTE OF LOVE

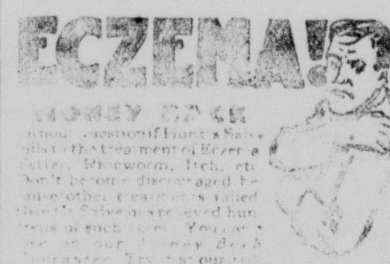

On April 1 the death angel came and carried the little babe of Mr. and Mrs. Sam Clark to that bright home where there is no more weeping or goodbyes. The little babe was only a few hours old, but still grief and sorrow came in this home when the loved ones had to say good-bye. We can't understand why it could not stay with us longer, but the Lord said, "suffer little children to come unto me" and this little babe was one more he needed in his mansion above.

These little angels make heaven seem nearer and dearer to us when we know they are there waiting for us.

This was the third time this father and mother had to submit to the Lord's will and say "thy will be done" but we can say to them when torments and trials of their life seem too heavy to bear if they are traveling in the narrow path that leads to life eternal they are comforted by the star of hope which point to a life of joy where they will meet their loved ones, where all sorrow and grief will forever be gone.

The Savior has promised to sustain them in all of their troubles, this dear little babe was only a little bud on earth transplanted in heaven to bloom.

A Loved One.

DODSON TELLS THE HORROR OF CALOMEL

You Don't Need to Sicken, Grip, or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels. Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't salivate.

INCREASE CREAM SHIPMENT

J. T. Parma who recently began the purchase of cream for shipment from local producers, reports a steady increase in the production of butter fats and that the farmers are being benefitted by the installation of the purchasing station at his store.

Cream at the rate of from 10 to 35 gallons a day is being received in Cameron and shipped to Houston.

There has been a steady increase in the production of butter fats which shows that the farmers are producing a better grade for market purposes.

In this effort on the part of Mr. Parma is seen the basis for a great industry to be built up in Cameron and Milam county. Millions are being made annually by butter fat producers in Central Texas and Cameron should fall in line and make production big in this territory.

ALKALI IN SOAP RUINS HAIR

Most soap contains free alkali, which is very injurious to the delicately constructed scalp, and causes the hair to become dry and harsh. Careless and incorrect shampooing frequently causes the pores of the scalp to become clogged and thus the hair roots fail to receive nourishment and air. In this state the tissues are weak and become an easy prey to attacking germs such as dandruff.

Great care should be taken in choosing a shampoo which is free from any injurious substance, is pure, cleansing, mildly antiseptic and tonic in effect. There is such a shampoo on the market—Splenox Coconut Oil Shampoo. Its beneficial effects have aided in renewing health and beauty in the hair of many men and women.

A few hair health and beauty rules:
1. Wash and disinfect your brush and comb regularly.
2. Tight hats or methods of hair dressing that bind the hair interfere with scalp circulation.
3. Give the hair frequent air and sunlight baths; but do not expose to the direct rays of the sun when it is wet.
4. At the first sign of dandruff apply Splenox Guaranteed Dandruff Remedy regularly till the scalp responds to the treatment.
Shampoo regularly—men once a week, women once a fortnight—with Splenox Coconut Oil Shampoo.
Splenox products are absolutely pure and reliable and are scientifically prepared to promote health and beauty to the hair. Made by The Splenox Co., Dallas and Philadelphia.

TRADE AT HOME

Why It Is to the Advantage of Everyone to
Buy In Cameron.

The natural setting for education is
the town or community, for it is here,
that the child learns the different oc-
cupations and how each is dependent
on the other. He learns the relative
position of farmer, banker, merchant,
doctor and other vocational men. He
comes to understand how roads, tele-
phones, schools and churches develop
his life long before he becomes a fac-
tor in providing these requirements
of civilization.

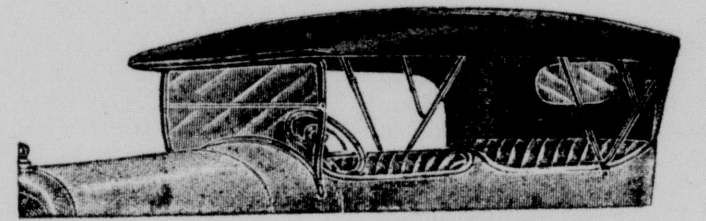

To improve the setting of education
is to produce a higher degree of in-
telligence, upon which the basis of a
community's future is laid. Improve-
ment can only be achieved through
united effort. Co-operation is the
foundation of progress. The working
together of the two component parts
of a community or town, the producer
and the consumer, leads directly to

the profits and enjoyment of each cit-
izen.

Co-operation is the keynote to the
Trade-at-Home Movement. Creating
and maintaining public institutions is
only a matter of taxes. By trading
at home the money of the community
is kept in circulation and greater cir-
culation means greater improvements.

Those who patronize foreign indus-
tries only lessen the growth of their
own community. The taxes from the
money sent away could produce bet-
ter roads, schools and stores, could
provide libraries, parks and play-
grounds, and in every way could add
to the development of the community.

The Trade-at-Home Campaign urg-
es customers and merchants to join
hands, each to help the other; effi-
ciency, success and happiness is sure
to be the out come.

This week we have with us Mr. Coppini, of Chicago, and Miss Elizabeth Eberle of San Antonio.

All of these we feel sure can do the work well, but the writer knows Miss Eberle personally. She has a studio both in Chicago and San Antonio and she studied under America's greatest sculptor, Mr. Taft, for five years, and assisted him with his million dollar

contract to beautify the city of Chicago, assisted him with the colossal and gigantic Fountain of Time.

BAPTIST CHURCH

The Junior Union resumed its work last Sunday afternoon under the leadership of Mrs. M. G. Cox and the beginning was most auspicious. The future of the Juniors is very encouraging.

The Sun Beams will soon begin their work again. Miss Lilly Mag Jeter will soon be able to take her place with them again and the little folks will have something to do for the Lord's cause.

Plans are forming for the organization of a junior church choir for our younger set. This new choir will be for all the young people in our church who are willing to use their voices and instruments. Mrs. C. D. Lay will be director of the young people's choir. Definite announcements will be made Sunday morning about your work.

The pastor will speak Sunday on "Grieving the Holy Spirit." This sermon is especially for Christians. The pastor is anxious that the young members hear this talk.

The evening service will be given over to a union service conducted by Rev. Atticus Webb of Dallas.

Both Unions will meet at 8:45 p. m. A cordial welcome is extended to all young people to attend.

INTER-CHURCH MASS MEETING FOR MILAM FOR APRIL 27

We are now able to announce definitely as to when the County Mass Meeting will come. Tuesday, April 27th is the day. The headquarters in Dallas is sending us a strong team of speakers furnished with literature, stereopticon slides, and everything necessary to put before us the facts as to the world task before the churches.

This will be an all day meeting with an important night session. There will be also in a separate church a special session from 4:30 to 7:30 for young people. This ought to be a great day for the church people of Milam. Come prepared to spend the day.

There is no intention on the part of this movement to drag any one into anything they do not wish to have any part in. Practically all the churches in Milam, save the Baptist, are in some way as denominations co-operating in this movement. We want you to know what is being brought to you and so we hope you will make an effort to take in all this County Meeting. We are giving a hearty invitation to all to be present.

We hope to arrange so that visitors and home folks may lunch together in the city park, but more of this later. H. R. MacFADYEN, Co. Conventor, Cameron, Texas.

PRESBYTERIAN CHURCH

The yearly reports read last Sunday for the year closing March 31, show that the church has had a good year. There have been 41 additions. The total gifts of the church amount to \$7313. Of this \$869 went to the Foreign Work, and nearly \$2000 to our Educational work. The total for Benevolences, outside local expenses was over \$4000. There is good reason to think that after our canvass in April that the church will have raised the Foreign Mission offering to that point where we will have our own missionary.

The congregation has been called to meet on the First Sunday in May for the election of two additional deacons. Sunday morning at 11 o'clock Rev. W. E. Copeland, Pastor of the First Presbyterian Church of Rockdale will preach for us. Mr. Copeland is one of the oldest ministers in this section, a Confederate soldier, and has a host of friends, many of whom will be glad of this opportunity to hear him.

The pastor goes Thursday to address the Presbyterian in Waco on the Presbyterian Progressive Program. He will go on to Temple to the meeting of Central Texas Presbytery which this time holds over Sunday.

No services Sunday night.

RECEPTION FOR DR. AND MRS. HARDIE

There was an open house reception at the M. E. church Friday night.

The church was beautifully decorated with spring flowers, and music furnished by the Pathe.

Two punch bowls were presided over by ten girls.

Mrs. W. O. Triggs made a farewell talk to Miss Jessie Guffey, their leader, who is going to move in the near future to Yoakum and Miss Jessie responded very fittingly.

A vocal solo by Miss Louise Adams and a piano selection by Mrs. Roy Jeter came next, after which Rev. Key presented Dr. Hardie with a very substantial check. Dr. and Mrs. Hardie have indeed been honored, and well they should be, since coming into our midst, for they brought with them a blessing to all who have heard them.

HOUSEWORK IS BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Cameron women. Read what Mrs. Martha Moore, E. 2nd Street, Cameron, says:

"For a great many years Doan's Kidney Pills have been my standard medicine for kidney complaint. I have taken Doan's when my back and sides have been so lame and sore that I couldn't do my housework. When my kidneys were irregular, I would get dizzy spells when stooping that just blinded me. That condition made me nervous. I felt out of sorts. When I had attacks of that kind, I took Doan's Kidney Pills and about one box of them strengthened my kidneys and restored to good health. I very gladly recommend Doan's Kidney Pills to anyone."

KILLEEN YOUNG MAN IS SHOT TO DEATH IN PISTOL DUEL

MONT RAY SERIOUSLY WOUNDED
IS RUSHED TO TEMPLE
HOSPITAL TUESDAY

Killeen, Texas, April 12.—Floyd Cannon, 21, of this city, was shot and killed here today about noon. Mont Ray, 48, formerly of Killeen, but now of Archer City is in a Temple surgical institution where he was rushed following a pistol duel between the two men on the main street of the town.

Three years ago, this month, April 4, 1917, W. Cannon, father of the victim of today's affray, was killed in a shooting on the streets of Killeen and John Blair, city marshal, died soon afterward from wounds accidentally received then. Mont Ray was acquitted in connection with the double killing.

Ray is said to have arrived from Archer City, his present home, yesterday afternoon and the two men met today shortly after the noon hour in front of the First State Bank building. Cannon died before witnesses reached him. He received three wounds, one in the abdomen, another in the mouth, penetrating his brain and the other splintering his right arm. Ray was hit in the abdomen and the right lung. He was taken to Temple for medical attention immediately following the incident.

The mother of Cannon and the wife of Ray have both been in a Temple surgical institution for some time and Ray is now in the same institution.

Cannon is survived by his mother, a small brother and two sisters.

Reports from the bedside of Mont Ray at a local surgical institution last night were that he had a chance to survive though in a critical condition. A bullet was removed from his chest and the intestinal wound dressed. Ray was conscious when brought to the hospital and was able to talk last night.

Thence S. 20 W. 760 vrs. with said East Boundary Line to the place of beginning, containing 45 acres of land.

That he obtained said land, by devise from his mother who acquired the same during the life time of her husband, David Chance who died intestate and that John Chance and Annie Price were children of said David and S. E. Chance and each of them died intestate leaving surviving children which facts cast a cloud upon plaintiff's title. No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthener Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

**PYTHIAN ORDER
HAS GOOD RECORD**LODGE WRITES SUMMARY OF
WHAT ORDER STANDS FOR
IN COMMUNITY

The Pythian Order in Cameron has stood many years for the highest ideals in American citizenship, patriotic devotion to the country and loyalty to the civic welfare of the community. During the year the Pythian Lodge has been operated in this city, its Castle Hall has been the meeting place of men inspired to perform a service for their fellowmen and community. To be a Pythian in this town means that you are alive to the social welfare of the community, that you are loyal to the fraternal conception of life and that you have enlisted in cause of the development of brotherhood and fraternal fellowship of men. Perhaps no other fraternal society has performed a greater service to the community than has the Knights of Pythias during the last few years.

More than 720,000 men of the United States and Canada are members of the Order. There are fifty-four grand domains and over 7,500 lodges. The Order has proved itself loyal to country. More than 60,000 young men of the Order crossed the seas or were ready for embarkation when the armistice was signed.

The Pythian Order was the first to write into its Ritual the flag ceremony; it was the first American fraternity to enforce the sole of rituals printed in English; it was the first to disbar from membership men engaged in the liquor traffic. It has made war on all things not safe and sane and does everything possible for making the world better.

The war record of the members of this Order is second to none. Besides sending a large number of members into the service these who remained at home, aided by their wives, mothers and sisters, contributed much to building up the morale of the community and in supplying the needs of the Government at a time when the service of every citizen was demanded. Upon the record the Lodge has made in this community, the members of the Lodge solicit the consideration of all men who love their country and who are interested in building up a fraternal conception of life.

In 1877, under the direction of the Supreme Lodge, the Insurance Department was established and placed in charge of a Board of Control. Since that time the Department has paid \$46,295,560 to widows and orphans of members. Even with the war losses and those of the great epidemic of last year, this Department has returned nearly \$2,500,000 in waived payments. It has a legal reserve and ledger assets amounting to over \$10,700,000 invested in American securities. During the last year it paid \$4.38 every minute to aid in maintaining the Pythian household, or an equivalent of \$6,312 for every day in the year.

Other auxiliaries are the Uniform Rank which gave 10,000 men and officers in the world war; the Knights of Khorassan, the "playground of Pythianism;" and the Pythian Sisters with over \$200,000 members, whose war record and altruistic work has made the organization one of the most effective woman's fraternities in America. In this spirit has the Order been moulded. In every relation and from every viewpoint, Pythianism is practical, elevating and consistently progressive.

A. F. Vandernall of Fort Worth, oil operator and refining expert, the man who invented the One Man Refinery, was in Cameron this week looking over the Milam County fields. Mr. Vandernall is trying to secure leases in the fields here and if he is successful in doing so will develop his holdings and install his refinery to refine the crude oil. Mr. Vandernall during a recent visit to Tracy field secured some of the crude and made an analysis and this week had on exhibition here a number of refined products made from the Tracy crude. He says the oil is of a gravity scarcely to be found anywhere in the country and the refined product will be abundant as well as valuable.

Good clean West Texas Seed at Oil Mill, \$1.65 bushel.

Austin, Texas, April 7.—The proclamation for Health Week by Governor W. P. Hobby, differs from former "Clean-Up" proclamations, in that more than a raking up of trash is included in this manifesto.

In the rush to beat the H. C. L. game, we too often neglect to investigate into the causes which influence our physical ill or well being.

Preventable disease interfering with our progress and comfort, it is advisable that we take an inventory of our health credits and debits.

For instance, a physical examination of school children might reveal that some of them are handicapped in their development by reason of defective teeth, eyes, enlarged tonsils and adenoids, lack of proper exercise, use of unsuitable desks, poor lighting, ventilating and heating facilities; or are suffering from mal-nutrition.

Then again, an investigation of water supplies and dairies of the town may show that some infected point along the line of transmission of these two commodities, may be responsible for intestinal disease.

An inspection of slaughterhouses, meat markets, or food dispensaries, may bring to light some unwholesome features. Again, a visit to the public buildings, such as picture shows, court houses and jails, may startle the inspecting committee by the lack of sanitation.

A perusal of the city health ordinance might call attention to antiquated ordinances and the need for additional safe-guarding measures.

A social survey of housing conditions may arouse the good housewives upon finding that their cooks are domiciled with a tubercular patient. Or, they might be surprised that their washerwomen stack the finished laundry upon vermin infected furniture.

An x-ray thrown upon the method of night soil disposal would most likely result in finding fly and hook-worm breeding places,—the fly being the most expert conveyor of disease producing organisms. This examination might show that the community sewer system is not being patronized to the extent that is desirable.

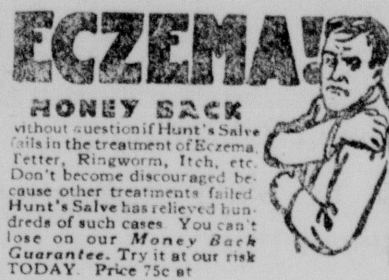

Nor should the committee fail to overlook the dumping ground, for this incubator of disease organisms commands the attention of every community.

Nothing favorable can be said for maintaining mosquito breeding places. Extermination of insects and rodents; establishing health centers; muzzling dogs; giving lectures, and many other hygienic rules might advantageously be considered during health week.

Most important, however, is the matter of providing your city with a permanent, adequate, efficient and well paid health organization, thereby insuring future low casualty lists. Begin organizing for Health Week now, and improve our rating with the State Board of Health.

SAN GABRIEL GOSSIP

By Mrs. J. S. Woody

April 13.—We ask our readers to receive us in audience for a brief period, once again. Our letter may not be startlingly prolific, this writing as busy days fulfill, for us, the old adage—"Business before pleasure," and 'tis a short note of the whereabouts of our brothers that we chronicle today.

Will Lee and family were trading in Davilla Thursday.

Leonard Locklin and Joe Yeager were attending business in Thorndale Monday.

Ed. Case is sporting a beautiful new Oldsmobile car this week.

Mr. Joe Isaac has made more convenient the transportation of his business by the purchase of a truck.

Miss Minnie Young and brother, Vess, of Thorndale, were in our village Wednesday.

Johnnie Faulkner of Llano is a guest of relatives in this village at present.

A number of Rebekahs came down from Taylor, including their Rebekah degree team, who initiated nine new members into our San Gabriel Rebekah Lodge last Wednesday evening. Refreshments served by our home lodge after business hours.

J. S. Woody went to Cameron Friday.

Rev. Roberts of Cameron preached at San Gabriel Christian church last Saturday night and Sunday.

The move is on in our community to erect a handsome new Christian church building here, in the near future. Donations are being discussed among its members now.

Little Miss Ira V. Woody visited the dental chair in Thorndale Monday.

Mrs. J. D. Griffith and son, Ben Smith, accompanied by Miss Ruth Barmore spent the past week end in Austin.

The event of the season in our village was the tacky party given at the school auditorium last Friday evening. It was largely attended and very laughable.

Sharp baseball boys were conveyed to San Gabriel school grounds Friday afternoon, where a game was matched with our school boys. Sharp won honors of the day.

Seth Glascock returned Wednesday from a few days' stay in San Antonio.

Miss Maude Little of Thorndale was a visitor in our village Wednesday.

Mr. and Mrs. Hyte Stigall were day evening.

Trading in Thorndale Monday.

Political Scenario Written by W. T. Hefley as Open Letter to Home and State.

Editor Home and State, Dallas, Texas.

In your editorial of April 1, 1920, entitled "Foremer Senator Bailey Speaks at Coliseum," among many others, you have this unfair and untrue statement:

"The rank and file of the political 'has beens' and brigade of 'Ex-Exes' were on hand. The 'L & L Special' had arrived."

In order to expose the falsity and unfairness of the above statement first uttered by a prominent candidate for Governor opposing Senator Bailey which you repeat, I have in this open letter made an analysis of the character, and a picture of those who are venting their vituperations against Joseph W. Bailey, and I appeal to your sense of fairness to publish this in your next issue:

The attacks on Senator Bailey at the last meeting of the State Executive Committee and the meeting of his opponents in Dallas Saturday March 6th are the bitterest in all the history of politics in Texas; but when we analyze the personnel of those making this attack, we find they are mostly his old enemies with the same old cry, and a long standing grudge which gives virulence to their spleen, as is fully evidenced in the leaders of the pack.

A strong feature in their complaint is that Ex-Senator Bailey is being supported mostly by ex-office holders and ex-candidates. In this connection you could never find more ex-office holders, ex-defeated candidates and double "ex" dead ones, politically, than is shown by the supporters of those two meetings in Dallas.

I would like to know where you could find as many.

To begin my scenario, the first to list by in my movie film are the wild Toms—Tom Ball, Ex-Congressman and defeated candidate for Governor; Tom Campbell, Ex-Governor and defeated candidate for United States Senator; Tom Henderson, Ex-District Attorney and member of the Legislature, and defeated candidate for Congress; Tom McCulloch, Ex-County Judge and defeated candidate for Congress; Tom Love, defeated candidate for National Committeeman and something in Missouri; Mr. Thomas, Ex-County Attorney and several times defeated candidate for Congress; Thos. M. Crane, Ex-Attorney General and defeated candidate for Governor; Mr. S. P. Brooks, defeated candidate for the United States Senate; Cone Johnson, Ex-State Senator and defeated candidate for Governor and defeated candidate for delegate to the Democratic National Convention in 1900, by Senator Bailey, together with Looney, Ex-Attorney General; Neff, Ex-County Attorney; Thumason and Lewelling, candidates for Governor who will be defeated by Joseph Weldon Bailey in the primaries of July 1920.

There is a cloud of others, whose names appear in connection with the two meetings in Dallas and who are ex-office holders, ex-defeated candidates who are now candidates who will soon have to write "defeated" after their names, and chief among them will be the Gov. W. P. Hobby of Blue Ridge fame, who will appear in the "Good Night Scene" clothed in his pajamas, shame and iniquity in company with his late campaign manager.

Hon. Joseph Weldon Bailey, Ex-Senator, Ex-Congressman, has never been defeated for office and I predict a great victory will crown his campaign for Governor in this good year—1920.

Then let our slogan be: Back to the Constitution; back to the democracy of Jefferson, Jackson, Coke and Sul Ross; America first and forever.

Yours very truly,
W. T. HEFLEY.

More Outlets--- MORE SERVICE

If you haven't electricity in your home and on your farm you should take steps to install it, by all means. If you have it, make all possible use of it. Too many people, with all the conveniences of electricity at hand, fail to appreciate the value of duplex or double outlets.

ELECTRICITY FOR COMFORT

To get full comfort from your electricity, save yourself the discomfort of doing without some appliance you wish to use. Do not be handicapped by only one outlet when you need more.

Extra outlets can be installed at small expense—and with large dividends in extra comfort. They make it possible to use any appliance without the bother of removing light bulbs, or to use two appliances at the same time if desired.

WILSON DEMOCRATS HEAR DEFENSE OF ADMINISTRATION

MEETING DEVELOPS INTO HOT
POLITICAL DEBATE BETWEEN
DAVIS AND POPE

Administration Democrats held their first meeting here last Saturday which was addressed by W. C. Davis of Bryan in defense of the National Democratic Administration.

The meeting developed into one of the hottest political debates ever held in Cameron when John W. Pope of Dallas took the platform following the address of Mr. Davis and spoke in the interest of the candidacy of Bailey for Governor and scored the Wilson administration.

Mr. Davis replied to Mr. Pope in defense of the record of the Democratic party during the period of Mr. Wilson's administration. Though Mr. Davis had spoken for nearly an hour he took the platform and made an able defense of the administration.

No debate of the issue had been arranged as Mr. Davis was secured to address a meeting of the Administration forces but the Bailey Club scheduled a speaking for the same day and after Mr. Pope's speech the meeting resolved itself into a joint discussion.

The meeting was opened with an address by T. S. Henderson who reviewed the legislative and war record of the administration.

Mr. Davis was introduced by U. S. Hearrell and Mr. Pope was introduced by W. A. Morrison.

The Goodyear Tire & Rubber Company has completed arrangements with the Brazilian government for the erection of a South American factory to be located outside the city of Rio Janeiro.

Construction of the foundations has already begun and it is believed that the factory will be completed within a year and a half. The factory group will consist of four buildings built to allow four buildings built to allow adequate expansion. At first 1,000 employees, mostly Brazilians, will operate the plant, which will probably have a capacity of about 1,500 tires and tubes a day.

Training of the personnel that will be sent to Brazil from Akron as the skeleton organization will be started within the next few weeks. In accordance with its policy, Goodyear will allow employees to make application for connection with the South American factory and those selected will be enrolled in classes for instruction in Portuguese, the language of the country.

The output of this concern will be pneumatic and solid tires, and also mechanical goods similar to the lines now manufactured in other Goodyear factories.

Negotiations for the purchase of a site were begun two years ago with the Brazilian government, but were broken off by the entrance of the United States into the world war. Difficulties in obtaining shipping facilities caused the postponement of negotiations until recently.

Acquisition of the South American factory marks another step in the expansion policy of the company, which already has already has plants in Akron, Los Angeles and Toronto, Canada.

A committee has been appointed to look into the matter and the report will be had at the meeting to be held Saturday. It is urged that a large attendance on the part of the farmers as well as the business men be had Saturday in order to decide matter as time is short.

STEPHEN SLADE DEAD

(Special to Herald.)
Milano, Texas, April 14.—Stephen Slade, aged 81 who settled on Cow-skin Creek, seven miles from Wichita, Kansas, in 1873 when Wichita had 100 people and who visited his nephews at Marlow School in 1877, died at his farm on April 7, at 4 p. m.

Mr. Slade's farm became quite valuable and his estate was valued at \$50,000 at the time of his death. George Homes of Weldon, Texas, was with him when he died, but Chas. Howes of Milano, could not be with him on account of his duties at the post office in Milano.

Mr. Slade was a consistent Christian and had been a member of the Methodist church for 63 years.

Miss Winnie Henderson is visiting her brother, Mr. Law Henderson in Bryan this week.

WILL BUILD ROAD THROUGH TO MILANO

CITIZENS OF MILANO MEET
WITH COMMERCIAL CLUB
FRIDAY

A movement has been started by the Cameron Commercial Club in conjunction with Milano citizens to improve the road from that city leading to Cameron.

At the last meeting of the Club the matter was presented by the good roads committee with Giles L. Avriett as spokesman.

J. O. Newton, Walter Newton and W. A. Beard, representative from this county to the Legislature, made up the delegates from Milano. It is proposed to pay one-fourth of the construction cost out of the road bond funds of the Milano District. It is thought that a part of the special supplemental bond money recently voted in Cameron will be applied to pay that portion needed from the Cameron district and if necessary to raise by subscription the remaining funds needed.

The Milano committee was given assurance that the road will be constructed. The road to be constructed is 8 2-10 miles bordering the two districts. Both Federal and State aid will be secured for the road and a committee has been appointed to take the matter up with the Highway Commission at Austin.

State Fire Marshal S. W. English is insisting that every Texas City be thoroughly cleaned before the hot summer winds come to make the fire hazard so great. City Fire Marshal Ed Adams will co-operate in this work and is asking the aid of the people of this city who have their town's welfare at heart.

"There is no telling what fire will cause a conflagration similar to that at Grandview," said the City Fire Marshal. "We are not protected from fire any better than was Grandview and we are no luckier. We have the same cases of defective electric wiring to cause the fire and the same shingle roofs to spread it over the city and the same high winds."

"But we have example of Grandview and other cities to warn us to prepare for fire, to fight it before the match is struck; and if the people of this city will co-operate in the work we can make Cameron reasonably safe from all dangers.

"It is necessary that we have a spring clean-up campaign at once and prepare for summer and its fire dangers. No rubbish should be allowed to collect in alleys and back yards nor should old boxes and barrels add to the dangers in the business parts of town.

"I am going to ask the women's clubs to co-operate with the city in this work, for in other Texas towns the women are the ones who accomplish most at cleaning up. But the business men must do their part and even the children in the schools can aid. A clean city means a healthy city, too, and we have two reasons for this spring clean-up.

"The State Fire Marshal's Office in co-operation with the women's clubs will endeavor to reduce the fire loss in Texas by 50 per cent per capita within the next ten years, and the people of Cameron must do their share."

Mrs. Emily Swift is the guest of her daughter, Mrs. Oxsheer Smith.

J. C. EDWARDS

Mr. J. C. Edwards was born in Montgomery County, Texas, Dec. 29, 1876, and lived there till the time of death, which occurred in Galveston Feb. 10, 1920, following an operation.

Early in life he united with the Methodist church, and lived a consistent and useful member. On Sept. 1, 1894 he was married to Miss Lena Gregory, daughter of Rev. J. B. Gregory and sister of Mrs. Monroe Walker of Friendship of Milam County.

To this union were born two children, Florine and Cora Belle.

He was buried in the old family grave yard in Montgomery county. He was a useful citizen, a devoted husband and father, a loving brother and a loyal son.

May heaven's richest blessings rest upon his sorrowing family, kindred and friends.

TEMPLE SYNDICATE WILL DEVELOP J. C. DAVIS
ACREAGE

Showing the transfer of 115 acres of land from J. C. Davis of this county to the Dixie Winner Drilling Company at Temple, papers were filed for record with the County Clerk here Saturday closing one of the most important oil lease deals recorded lately in the Tracy shallow field.

This tract of land, situated in the heart of the now famous Tracy shallow oil field in the southern part of Milam county, has been one of the most sought after pieces of ground in Texas of late, but due to the fact that there existed technical complications in the title, it has never been transferred before. Hundreds of the representatives of as many oil companies have applied to Mr. Davis for this tract, but the scout of the Temple concern seems to have been the first man to reach him with the required amount of money when the technicality was finally cleared away, and he returned to Temple last night with the lease, properly signed and recorded.

The land immediately adjoins the producing field of the Texas Eagle Producing & Refining company, a ten million dollar company headed by Frederick A. Cook, of North Pole fame. The tract already has one producing well on it, and it is understood that the Temple company will immediately place a number of rigs to work and fully develop the property both for the shallow and deep oil.

The consideration shown in the transfer was \$11,500 cash and one-eighth royalty on all production.

You will see the big Pickford Film, "Pollyanna" at the Wonderland, Tuesday, April 20. This is one of the most favored of Miss Pickford's productions.

RECRUITING PARTY ARRIVES

A recruiting party of six men with Capt. Willis G. Dunkum, 17th Field Artillery in charge, has arrived and will remain in the city until the 22nd. The 17th Field Artillery is a motorized regiment belonging to the famous Second Division, now stationed in Camp Travis, Texas, within the city limits of San Antonio. It has every facility for health recreation, such as swimming pool, tennis courts and there is a large rest camp established in New Braunfels, Texas, where over one hundred men go each week in trucks for hunting, swimming, boating and fishing.

They are offering a chance to enlist in a motorized regiment. Courses are provided in the following subjects: English, Arithmetic, Spelling, Geography, History and other Elementary Subjects, Stenography, Book-keeping and Typewriting, Automobile, Truck and Motorcycle Driving and other automotive subjects, Printing, Photography, Lithography, Music, Sign Painting, Electricity and Drafting, Carpentry, Plumbing, Horse-shoeing and Cooking. Also several other subjects and trades.

A word to the ex-soldiers of Cameron and the surrounding country: Victory Buttons may be obtained from any one of this party by applying to them with your discharge. The Victory Button is a beautiful bronze button issued by the government, and the men that were wounded in France are entitled to silver button. Men may enlist for one (1) year in the field artillery with or without previous service. You may enlist for foreign service in Alaska, Panama, Hawaii, and also for service on the Mexican border.

See them while they are here and ask for any information about the New Democratic Peace Time Army.

If you have not seen Nazimova in "The Brat" you have not yet witnessed one of the real triumphs of this famous screen star. It will be shown at Wonderland Friday, April 23rd.

NARROW ESCAPE

Monday afternoon, three girls, Misses Neppie, Newton, Florence Butts and Blanch Gore were in Mr. J. W. Gore's car. Miss Neppie was learning to drive and while coming around the corner at the New Cameron Drug Store the car ran into her cousin, Billy English on his wheel. The wheel was completely demolished, the boy was taken to the Sanitarium, but was found to be only scared.

MRS. SHEPHERD.

Betsy Lane Shepherd, who will give a concert in Cameron on April 27th, has many amusing things happen to her, as do all stars much in the public eye.

The other day, she says, a friend of hers heard one of Mrs. Shepherd's songs on an Edison RE-CREATION. The number was entitled "Is It Nothing to You," and Mrs. Shepherd sings it with the utmost feeling.

The next time this friend saw Mrs. Shepherd she said:

"Oh, I heard such a beautiful record of yours the other day! I liked it so much that I not only bought one for myself, but sent two or three to my friends!"

Mrs. Sheppard was much pleased naturally. "That was very nice of you," she said gratefully, "which song

was it?"

"I'm not quite sure," the lady replied, "but I think it was 'Does it Make Any Difference.'"

BAILEY DECLARES HE IS IN RACE TILL LAST VOTE CAST

FORMER SENATOR SAYS HE
WILL DISCUSS STATE IS-
SUES SOON

Dallas, Texas, April 13.—Answering reports which he declares have been circulated accusing that he will retire from the race, former Senator J. W. Bailey today issued a statement in which he says he will stay in the race until the last vote has been counted.

Until after the May conventions Mr. Bailey says he will pay attention to national issues altogether.

Statement by Bailey.

Mr. Bailey's signed statement follows:

"Those who are opposing us are industriously asserting, sometimes in public, and more frequently in private, that I do not desire the office of Governor, and that I will withdraw from the race after the presidential precinct conventions are held, whatever their result may be. One purpose in making that assertion is, of course, to discourage my friends by inducing them to believe that they may be left without a candidate who espouses their views, and another purpose is to insinuate into the minds of men whom they consider ignorant a belief that I have some ulterior motive in making this race.

"I am not anxious to assume the great responsibilities which attach to the governorship, but I am sincerely anxious to rescue the Democratic party from the control of those who are deliberately divorcing it from its great principles and I became a candidate purely and only because it was the unanimous judgment of my friends that my candidacy would mostly clearly present the issues between the fundamental principles of democracy and the modern heresies which our opponents call 'Progressive Democracy.' In order that every Democrat who feels an interest in that question might have a fair opportunity to express himself upon it, we propose to the committee managing the opposition that it should be submitted to a primary election, instead of the precinct conventions.

"We believe—indeed, we know—that at least five times as many Democrats would express themselves at a primary election as will be able to do so in precinct convention. It could be otherwise; because, in establishments where four or five men are employed, all can not leave their business at one time, as they must do in order to participate in a precinct convention, but each of them could go at some time during the day to cast his or her vote in a primary election. What is true of the business men, is true also of the farmers. Even if they go to their precinct conventions, the politicians may prolong its sessions so that many of them must leave in order to attend to their work at home before a vote is ever taken; and knowing that may happen, thousands may not go at all, though they would cheerfully take the time to vote at a primary election.

"If a primary election had been agreed to and the Democrats of this State had rejected the Fort Worth declaration of principles, I would have

promptly announced my withdrawal as a candidate for Governor, because, even if I desired the office, I would not accept it, though it might come to me without a contest, unless I was authorized to administer it upon what I consider sound principles. The refusal of the other side to agree to a primary election, has convinced me that they want this issue decided by the politicians instead of by the people, while we want it decided by the people instead of the politicians. If our friends attend the precinct conventions, as I hope and believe they will, we will carry eight out of every ten counties in this State, but whatever may be the result this contest to

the end of the gubernatorial campaign, in order that the people may have a fair chance to decide between the principles which we advocate and the principles advocated by the opposition. J. W. BAILEY."

Did you ever stop to think that modern industrial concerns contain postoffices as large as many cities in the United States?

For instance The Goodyear Tire & Rubber Company receives and answers from 15,000 to 18,000 letters a day—as much mail as would be handled by a postoffice in a city of 30,000 people.

At this rate nearly 6,000,000 pieces of mail are received and sent out every 12 months.

If you want good bright alfalfa go to the Oil Mill.

TUESDAY, APRIL 20th

There are people everywhere who are drugging themselves with all sorts of medicine, who need nothing but a new viewpoint of life, a new comprehension of the power of happiness that is within themselves and in others, a new knowledge of how to find the bright side even under the darkest trial, of how to effect regeneration through words of cheer and encouragement, of how to generate a spirit of resignation, even of gladness, through the thought that sore as the affliction is, hard as is the deprivation, it could have been worse. What they need is the Pollyanna Treatment as portrayed by

THE GARDEN LADY'S STORIES

(Written for the United States School Garden Army, Bureau of Education, Department of the Interior.)

The Enchanted Princess Who Lives In Every Garden.

"What does this mean?" said Big-Sister-Peggy, who is in High School—"Sweet are the uses of adversity, Which like the toad, ugly and venomous,

Bears yet a precious jewel in its head."

"We are reading it in our Shakespeare at school, and our teacher said we must be able to tell her about it to-morrow."

The Garden Lady smiled and the mischievous little dimple that came and went near the right-hand corner of her mouth showed itself for just a moment. Then she said, "I'll tell you a story and perhaps that will help to explain about the precious jewel borne by the toad."

And so she did, and this is the story she told:

"One evening last summer, just between sunset and dark, I was sitting all by myself on the bench under the old Apple Tree in the Golden Girl's Garden."

"Oh!" said Tommy Thoughtful, "did the Scarecrow tell you another story?"

"Yes," said the Garden Lady, "several stories."

"Goody! Goody!" cried Jane "then you can tell them to us."

The Garden Lady nodded smilingly and went on with her story, thus:

"I was on the bench under the old Apple Tree, just between day and night, you know, when things look different from plain, daylight things."

"Suddenly I felt that some one was sitting beside me on the bench. I blinked my eyes and saw—our old friend, the Scarecrow."

"I opened my mouth to say 'Good evening,' but I got no further than 'Go-o-o'."

"Shh," said the Scarecrow very softly, lifting one finger and giving me a sort of wink, which seemed to mean that he was quite friendly. 'Sh! It's the Speaking Hour for creatures, and one of them wants to talk to you.'"

"I don't know why I looked down but I did, and I saw at my feet a little squatting figure, all humped up and warty."

"Oh-o-oh!" gurgled 6-year-old Billy Smart, "a hoppy-toad, Garden Lady?"

The Garden Lady nodded, and Jane said, "Oh, a toad; one of the garden aids, who hides in the brown earth and watches for garden foes!"

Then the Garden Lady went on with her story and said—"The Scarecrow whispered to me and said, 'The Little Princess—her castle is over there in the rocky back of us, where the ferns grow—the Enchanted Princess!'"

"The 'The Princess!' I whispered!" but the Scarecrow laid his finger on his pumpkin mouth.

"Now," continued the Garden Lady, "The toad was looking at me with its wonderful jewel-like eyes, dark-bright you know, a sort of gold-green-black like deep little wells, full of star-light."

"Oh," murmured Big-Sister-Peggy, "Bears yet a precious jewel in its head."

"Yes," said the Garden Lady, smiling softly.

"Garden Lady," said the toad, in a deep, sweet-sounding voice, as it looked steadily at me with its sad, bright eyes, "I want you to tell my story to the boys and girls of the United States School Garden Army."

And here is the story that the toad, clad in soft shades of dull sage green and gray and faint pale yellow, told to the Garden Lady, as she sat under the wise old Apple Tree in the Golden Girl's Garden:

"Long, long ago, in the Land of Once-Upon-A-Time, there lived a beautiful Princess. People said she had the most beautiful eyes in the world! When one looked into her eyes one felt and saw wonderful things. She was very good, too, that Princess. That is, she wanted to be good. But she had one fault, a bad fault, and a big fault. She was too proud. She was proud of her beauty, and she was proud of her goodness. Look in my eyes, Garden Lady, and you will see her."

The Garden Lady looked steadily into the deep little wells of the toad's jewel-like eyes, and as she looked an

image seemed to come, to grow larger and plainer until it rose into the air, swayed just above the tossing plumes of the growing corn. The image was that of a beautiful princess, clad in a long, floating robe of shining white girdled with gleaming jewels. Her dark hair fell back from her face to far below her waist, and seemed to mingle itself with the twilight shadows. But in her eyes was a look of great sadness. They were like the toad's eyes grown to human size, but full of love and sadness. In a little while the picture faded, and the toad went on speaking:

"Now, it was not right for the Princess to continue in her pride. She should have had the True-Beauty and the True-Goodness, which I hope all the little soldiers in the United States School Garden Army have, and so a spell was laid upon the Princess and she became enchanted."

"You remember, Garden Lady, how centuries ago Aesop told of the frog and the ox. That frog was too proud you remember. Aesop said that an ox grazing in a swampy meadow chanced to set his foot among a number of young frogs, and crushed nearly all of them to death. One that escaped ran off to his mother with the dreadful news."

"Oh, mother," he said, "it was a beast, such a big, four-footed beast, that did it!"

"Big," said the old frog, "how big? Was it as big?" and she puffed herself out—"as big as this?"

"Oh, a great deal bigger than that."

"Well, was it so big?" and she swelled herself out yet more.

"Indeed, mother, but it was," said the little frog, "and if you were to burst yourself, you would never reach half its size." The old frog made one more trial, determined to be as big as the ox, for she was jealous, and unwilling that any creature should be larger than she, and in her last effort she burst herself.

"Well, Garden Lady, one night the Princess of whom I have told you had a fit of jealous anger because someone had praised a princess of a neighboring country. She did not let anyone know how she felt. She was too proud for that, but she ran to her own room and looked at herself in her mirror of polished silver. As she looked her beautiful face, which was all burning with hurt pride, began to change. It grew suddenly grayish brown and flat. Her mouth lost its rosy color, and took on a queer shape. Her lovely clothes dropped from her. Her figure became, humped and small and squat, and her skin grew rough and warty. She was so ashamed and frightened that she ran, or rather hopped, out of the palace into the garden, and hid in the shrubbery."

HISTORY OF MENDENHALL'S

NUMBER 40 FOR THE BLOOD

Forty years ago an old doctor was putting up a medicine for diseases of the blood that cured the worst cases and time proved that the cures were permanent. After many years I secured the prescription, being a druggist, and took each ingredient separately and referred to my U. S. Dispensatory and other authoritative books on medicine and found the medicinal properties set down as follows: "A specific in its influence upon all glandular structures of whatever character, it is also a blood making remedy of great power. Acts directly upon the skin and is indicated in eczema, itching, sores, ulcers, pimples and skin eruptions of whatever character. Employed in chronic rheumatism, catarrh, constipation, stomach, kidney and

liver trouble. Under its use scrofulous swellings and bodily eruptions that have withstood all other treatment disappear as if by magic." To commemorate my fortieth year as a druggist, I named this medicine Number 40 For The Blood. J. C. Mendenhall, Evansville, Ind. 40 years a druggist. Frank Stacer, prominent farmer, Newburg, Ind., makes the following statement: "I suffered with rheumatism for several years. Tried numerous remedies with little or no benefit. Number 40 For The Blood was recommended to me and I improved from the time I began taking it. I have taken in all six bottles and feel that I am entirely well, as I have had no symptoms of the disease for two years."

A TRIBUTE TO LOVE

On April 1 the death angel came and carried the little babe of Mr. and Mrs. Sam Clark to that bright home where there is no more weeping or goodbyes. The little babe was only a few hours old, but still grief and sorrow came in this home when the loved ones had to say good-bye. We can't understand why it could not stay with us longer, but the Lord said, "suffer little children to come unto me" and this little babe was one more he needed in his mansion above.

These little angels make heaven seem nearer and dearer to us when we know they are there waiting for us.

This was the third time this father and mother had to submit to the Lord's will and say "thy will be done" but we can say to them when torments and trials of their life seem too heavy to bear if they are traveling in the narrow path that leads to life eternal they are comforted by the star of hope which point to a life of joy where they will meet their loved ones, where all sorrow and grief will forever be gone.

The Savior has promised to sustain them in all of their troubles, this dear little babe was only a little bud on earth transplanted in heaven to bloom. A Loved One.

INCREASE CREAM SHIPMENT

J. T. Parma who recently began the purchase of cream for shipment from local producers, reports a steady increase in the production of butter fats and that the farmers are being benefitted by the installation of the purchasing station at his store.

Cream at the rate of from 10 to 35 gallons a day is being received in Cameron and shipped to Houston.

There has been a steady increase in the production of butter fats which shows that the farmers are producing a better grade for market purposes.

In this effort on the part of Mr. Parma is seen the basis for a great industry to be built up in Cameron and Milam county. Millions are being made annually by butter fat producers in Central Texas and Cameron should fall in line and make production big in this territory.

ALKALI IN SOAP RUINS HAIR

Most soap contains free alkali, which is very injurious to the delicately constructed scalp, and causes the hair to become dry and harsh. Careless and incorrect shampooing frequently causes the pores of the scalp to become clogged and thus the hair roots fail to receive nourishment and air. In this state the tissues are weak and become an easy prey to attacking germs such as dandruff.

Great care should be taken in choosing a shampoo which is free from any injurious substance, is pure, cleansing, mildly antiseptic and tonic in effect. There is such a shampoo on the market—Splenox Coconut Oil Shampoo. Its beneficial effects have aided in renewing health and beauty in the hair of many men and women.

A few hair health and beauty rules:

1. Wash and disinfect your brush and comb regularly.

2. Tight hats or methods of hair dressing that bind the hair interfere with scalp circulation.

3. Give the hair frequent air and sunlight baths; but do not expose to the direct rays of the sun when it is wet.

4. At the first sign of dandruff apply Splenox. Guaranteed Dandruff Remedy regularly till the scalp responds to the treatment.

5. Shampoo regularly—men once a week, women once a fortnight—with Splenox Coconut Oil Shampoo.

Splenox products are absolutely pure and reliable and are scientifically prepared to promote health and beauty to the hair. Made by The Splenox Co., Dallas and Philadelphia.

TRADE AT HOME

Why It Is to the Advantage of Everyone to
Buy In Cameron.

The natural setting for education is
the town or community, for it is here,
that the child learns the different oc-
cupations and how each is dependent
on the other. He learns the relative
position of farmer, banker, merchant
doctor and other vocational men. He
comes to understand how roads, tele-
phones, schools and churches develop
his life long before he becomes a fac-
tor in providing these requirements
of civilization.

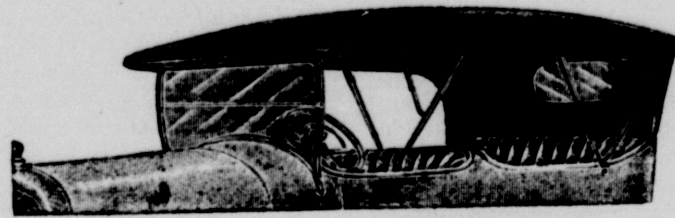

To improve the setting of education
is to produce a higher degree of in-
telligence, upon which the basis of a
community's future is laid. Improve-
ment can only be achieved through
united effort. Co-operation is the
foundation of progress. The working
together of the two component parts
of a community or town, the producer
and the consumer, leads directly to

the profits and enjoyment of each cit-
izen.

Co-operation is the keynote to the
Trade-at-Home Movement. Creating
and maintaining public institutions is
only a matter of taxes. By trading
at home the money of the community
is kept in circulation and greater cir-
culation means greater improvements.

Those who patronize foreign indus-
tries only lessen the growth of their
own community. The taxes from the
money sent away could produce bet-
ter roads, schools and stores, could
provide libraries, parks and play-
grounds, and in every way could add
to the development of the community.

The Trade-at-Home Campaign urg-
es customers and merchants to join
hands, each to help the other; effi-
ciency, success and happiness is sure
to be the out come.

BAPTIST CHURCH

The Junior Union resumed its work last Sunday afternoon under the leadership of Mrs. M. G. Cox and the beginning was most auspicious. The future of the Juniors is very encouraging.

The San Beams will soon begin their work again. Miss Lilly Mag Jeter will soon be able to take her place with them again and the little folks will have something to do for the Lord's cause.

Plans are forming for the organization of a junior church choir for our younger set. This new choir will be for all the young people in our church who are willing to use their voices and instruments. Mrs. C. D. Lay will be director of the young peoples' choir. Definite announcements will be made Sunday morning about your work.

The pastor will speak Sunday on: "Grieving the Holy Spirit." This sermon is especially for Christians. The pastor is anxious that the young members hear this talk.

The evening service will be given over to a union service conducted by Rev. Atticus Webb of Dallas.

Both Unions will meet at 6:45 p. m. A cordial welcome is extended to all young people to attend.

INTER-CHURCH MASS MEETING FOR MILAM FOR APRIL 27

We are now able to announce definitely as to when the County Mass Meeting will come. Tuesday, April 27th is the day. The headquarters in Dallas is sending us a strong team of speakers furnished with literature, stereopticon slides, and everything necessary to put before us the facts as to the world task before the churches.

This will be an all day meeting with an important night session. There will be also in a separate church a special session from 4:30 to 7:30 for young people. This ought to be a great day for the church people of Milam. Come prepared to spend the day.

There is no intention on the part of this movement to drag any one into anything they do not wish to have any part in. Practically all the churches in Milam, save the Baptist, are in some way as denominations co-operating in this movement. We want you to know what is being brought to you and so we hope you will make an effort to take in all this County Meeting. We are giving a hearty invitation to all to be present.

We hope to arrange so that visitors and home folks may lunch together in the city park, but more of this later. H. R. MacFADYEN, Co. Convener, Cameron, Texas.

PRESBYTERIAN CHURCH

The yearly reports read last Sunday for the year closing March 31, show that the church has had a good year. There have been 41 additions. The total gifts of the church amount to \$7313. Of this \$869 went to the Foreign Work, and nearly \$2000 to our Educational work. The total for Benevolences, outside local expenses was over \$4000. There is good reason to think that after our canvass in April that the church will have raised the Foreign Mission offering to that point where we will have our own missionary.

The congregation has been called to meet on the First Sunday in May for the election of two additional deacons. Sunday morning at 11 o'clock Rev. W. E. Copeland, Pastor of the First Presbyterian Church of Rockdale will preach for us. Mr. Copeland is one of the oldest ministers in this section, a Confederate soldier, and has a host of friends, many of whom will be glad of this opportunity to hear him.

The pastor goes Thursday to address the Presbyterian in Waco on the Presbyterian Progressive Program. He will go on to Temple to the meeting of Central Texas Presbytery which this time holds over Sunday.

No services Sunday night.

RECEPTION FOR DR. AND MRS. HARDIE.

There was an open house reception at the M. E. church Friday night.

The church was beautifully decorated with spring flowers, and music furnished by the Pathes.

Two punch bowls were presided over by ten girls.

Mrs. W. O. Triggs made a farewell talk to Miss Jessie Guffey, their leader, who is going to move in the near future to Yoakum and Miss Jessie responded very fittingly.

A vocal solo by Miss Louise Adams and a piano selection by Mrs. Roy Jeter came next, after which Rev. Key presented Dr. Hardie with a very substantial check. Dr. and Mrs. Hardie have indeed been honored, and well they should be, since coming into our midst, for they brought with them a blessing to all who have heard them.

HOUSEWORK IS BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Cameron women. Read what Mrs. Martha Moore, E. 2nd Street, Cameron, says:

"For a great many years Doan's Kidney Pills have been my standard medicine for kidney complaint. I have taken Doan's when my back and sides have been so lame and sore that I couldn't do my housework. When my kidneys were irregular, I would get dizzy spells when stooping that just blinded me. That condition made me nervous. I felt out of sorts. When I had attacks of that kind, I took Doan's Kidney Pills and about one box of them strengthened my kidneys and restored me to good health. I very gladly recommend Doan's Kidney Pills to anyone."

KILLEEN YOUNG MAN IS SHOT TO DEATH IN PISTOL DUEL

MONT RAY SERIOUSLY WOUNDED
IS RUSHED TO TEMPLE
HOSPITAL TUESDAY

Killeen, Texas, April 12.—Floyd Cannon, 21, of this city, was shot and killed here today about noon. Mont Ray, 48, formerly of Killeen, but now of Archer City is in a Temple surgical institution where he was rushed following a pistol duel between the two men on the main street of the town.

Three years ago, this month, April 4, 1917, W. Cannon, father of the victim of today's affray, was killed in a shooting on the streets of Killeen and John Blair, city marshal, died soon afterward from wounds accidentally received then. Mont Ray was acquitted in connection with the double killing.

Ray is said to have arrived from Archer City, his present home, yesterday afternoon and the two men met today shortly after the noon hour in front of the First State Bank building. Cannon died before witnesses reached him. He received three wounds, one in the abdomen, another in the mouth, penetrating his brain and the other splintering his right arm. Ray was hit in the abdomen and the right lung. He was taken to Temple for medical attention immediately following the incident.

The mother of Cannon and the wife of Ray have both been in a Temple surgical institution for some time and Ray is now in the same institution.

Cannon is survived by his mother, a small brother and two sisters.

Reports from the bedside of Mont Ray at a local surgical institution last night were that he had a chance to survive though in a critical condition.

A bullet was removed from his chest and the intestinal wound dressed. Ray was conscious when brought to the hospital and was able to talk last night.

Thence S. 20 W. 760 vrs. with said East Boundary Line to the place of beginning, containing 45 acres of land.

That he obtained said land, by devise from his mother who acquired the same during the life time of her husband, David Chance who died intestate and that John Chance and Annie Price were children of said David and S. E. Chance and each of them died intestate leaving surviving children which facts cast a cloud upon plaintiff's title. No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Poriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

**PYTHIAN ORDER
HAS GOOD RECORD**LODGE WRITES SUMMARY OF
WHAT ORDER STANDS FOR
IN COMMUNITY

The Pythian Order in Cameron has stood many years for the highest ideals in American citizenship, patriotic devotion to the country and loyalty to the civic welfare of the community. During the year the Pythian Lodge has been operated in this city, its Castle Hall has been the meeting place of men inspired to perform a service for their fellowmen and community. To be a Pythian in this town means that you are alive to the social welfare of the community, that you are loyal to the fraternal conception of life and that you have enlisted in cause of the development of brotherhood and fraternal fellowship of men. Perhaps no other fraternal society has performed a greater service to the community than has the Knights of Pythias during the last few years.

More than 720,000 men of the United States and Canada are members of the Order. There are fifty-four grand domains and over 7,500 lodges. The Order has proved itself loyal to country. More than 60,000 young men of the Order crossed the seas or were ready for embarkation when the armistice was signed.

The Pythian Order was the first to write into its Ritual the flag ceremony; it was the first American fraternity to enforce the sole of rituals printed in English; it was the first to disbar from membership men engaged in the liquor traffic. It has made war on all things not safe and sane and does everything possible for making the world better.

The war record of the members of this Order is second to none. Besides sending a large number of members into the service these who remained at home, aided by their wives, mothers and sisters, contributed much to building up the morale of the community and in supplying the needs of the Government at a time when the service of every citizen was demanded. Upon the record the Lodge has made in this community, the members of the Lodge solicit the consideration of all men who love their country and who are interested in building up a fraternal conception of life.

In 1877, under the direction of the Supreme Lodge, the Insurance Department was established and placed in charge of a Board of Control. Since that time the Department has paid \$46,295,560 to widows and orphans of members. Even with the war losses and those of the great epidemic of last year, this Department has returned nearly \$2,500,000 in waived payments. It has a legal reserve and ledger assets amounting to over \$10,700,000 invested in American securities. During the last year it paid \$4.38 every minute to aid in maintaining the Pythian household, or an equivalent of \$6,312 for every day in the year.

Other auxiliaries are the Uniform Rank which gave 10,000 men and officers in the world war; the Knights of Khorassan, the "playground of Pythianism;" and the Pythian Sisters with over \$200,000 members, whose war record and altruistic work has made the organization one of the most effective woman's fraternities in America. In this spirit has the Order been moulded. In every relation and from every viewpoint, Pythianism is practical, elevating and consistently progressive.

A. F. Vandernall of Fort Worth, oil operator and refining expert, the man who invented the One Man Refinery, was in Cameron this week looking over the Milam County fields. Mr. Vandernall is trying to secure leases in the fields here and if he is successful in doing so will develop his holdings and install his refinery to refine the crude oil. Mr. Vandernall during a recent visit to Tracy field secured some of the crude and made an analysis and this week had on exhibition here a number of refined products made from the Tracy crude. He says the oil is of a gravity scarcely to be found anywhere in the country and the refined product will be abundant as well as valuable.

Austin, Texas, April 7.—The proclamation for Health Week by Governor W. P. Hobby, differs from former "Clean-Up" proclamations, in that more than a raking up of trash is included in this manifesto.

In the rush to beat the H. C. L. game, we too often neglect to investigate into the causes which influence our physical ill or well being.

Preventable disease interfering with our progress and comfort, it is advisable that we take an inventory of our health credits and debits.

For instance, a physical examination of school children might reveal that some of them are handicapped in their development by reason of defective teeth, eyes, enlarged tonsils and adenoids, lack of proper exercise, use of unsuitable desks, poor lighting, ventilating and heating facilities; or are suffering from mal-nutrition.

Then again, an investigation of water supplies and dairies of the town may show that some infected point along the line of transmission of these two commodities, may be responsible for intestinal disease.

An inspection of slaughterhouses, meat markets, or food dispensaries, may bring to light some unwholesome features. Again, a visit to the public buildings, such as picture shows, court houses and jails, may startle the inspecting committee by the lack of sanitation.

A perusal of the city health ordinance might call attention to antiquated ordinances and the need for additional safe-guarding measures.

A social survey of housing conditions may arouse the good housewives upon finding that their cooks are domiciled with a tubercular patient. Or, they might be surprised that their washerwomen stack the finished laundry upon vermin infected furniture.

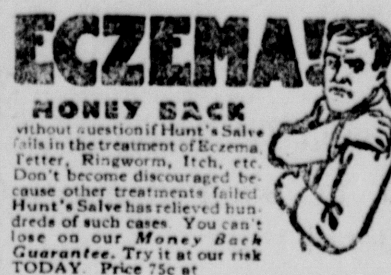

An x-ray thrown upon the method of night soil disposal would most likely result in finding fly and hookworm breeding places,—the fly being the most expert conveyor of disease producing organisms. This examination might show that the community sewer system is not being patronized to the extent that is desirable.

Nor should the committee fail to overlook the dumping ground, for this incubator of disease organisms commands the attention of every community.

Nothing favorable can be said for maintaining mosquito breeding places. Extermination of insects and rodents; establishing health centers; muzzling dogs; giving lectures, and many other hygienic rules might advantageously be considered during health week.

Most important, however, is the matter of providing your city with a permanent, adequate, efficient and well paid health organization, thereby insuring future low casualty lists. Begin organizing for Health Week now, and improve our rating with the State Board of Health.

SAN GABRIEL GOSSIP

By Mrs. J. S. Woody

April 13.—We ask our readers to receive us in audience for a brief period, once again. Our letter may not be startlingly prolific, this writing as busy days fulfill, for us, the old adage—"Business before pleasure," and 'tis a short note of the whereabouts of our brothers that we chronicle today.

Will Lee and family were trading in Davilla Thursday.

Leonard Locklin and Joe Yeager were attending business in Thorndale Monday.

Ed. Case is sporting a beautiful new Oldsmobile car this week.

Mr. Joe Isaac has made more convenient the transportation of his business by the purchase of a truck.

Miss Minnie Young and brother, Vess, of Thorndale, were in our village Wednesday.

Johanne Faulkner of Llano is a guest of relatives in this village at present.

A number of Rebekahs came down from Taylor, including their Rebekah degree team, who initiated nine new members into our San Gabriel Rebekah Lodge last Wednesday evening. Refreshments served by our home lodge after business hours.

J. S. Woody went to Cameron Friday.

Rev. Roberts of Cameron preached at San Gabriel Christian church last Saturday night and Sunday.

The move is on in our community to erect a handsome new Christian church building here, in the near future. Donations are being discussed among its members now.

Little Miss Ira V. Woody visited the dental chair in Thorndale Monday.

Mrs. J. D. Griffith and son, Ben Smith, accompanied by Miss Ruth Barmore spent the past week end in Austin.

The event of the season in our village was the tacky party given at the school auditorium last Friday evening. It was largely attended and very laughable.

Sharp baseball boys were conveyed to San Gabriel school grounds Friday afternoon, where a game was matched with our school boys. Sharp won honors of the day.

Seth Glascock returned Wednesday from a few days' stay in San Antonio.

Miss Maude Little of Thorndale, was a visitor in our village Wednesday.

Political Scenario Written by W. T. Hefley as Open Letter to Home and State.

Editor Home and State, Dallas, Texas.

In your editorial of April 1, 1920, entitled "Former Senator Bailey Speaks at Coliseum," among many others, you have this unfair and untrue statement:

"The rank and file of the political 'has beens' and brigade of 'Ex-Exes' were on hand. The 'L & L Special' had arrived."

In order to expose the falsity and unfairness of the above statement first uttered by a prominent candidate for Governor opposing Senator Bailey which you repeat, I have in this open letter made an analysis of the character, and a picture of those who are venting their vituperations against Joseph W. Bailey, and I appeal to your sense of fairness to publish this in your next issue:

The attacks on Senator Bailey at the last meeting of the State Executive Committee and the meeting of his opponents in Dallas Saturday March 6th are the bitterest in all the history of politics in Texas; but when we analyze the personnel of those making this attack, we find they are mostly his old enemies with the same old cry, and a long standing grudge which gives virulence to their spleen, as is fully evidenced in the leaders of the pack.

A strong feature in their complaint is that Ex-Senator Bailey is being supported mostly by ex-office holders and ex-candidates. In this connection you could never find more ex-office holders, ex-defeated candidates and double "ex" dead ones, politically, than is shown by the supporters of those two meetings in Dallas.

I would like to know where you could find as many.

To begin my scenario, the first to lisp by in my movie film are the wild Toms—Tom Ball, Ex-Congressman and defeated candidate for Governor; Tom Campbell, Ex-Governor and defeated candidate for United States Senator; Tom Henderson, Ex-District Attorney and member of the Legislature, and defeated candidate for Congress; Tom McCulloch, Ex-County Judge and defeated candidate for Congress; Tom Love, defeated candidate for National Committeeman and something in Missouri; Mr. T(h)omas, Ex-County Attorney and several times defeated candidate for Congress; Thos. M. Crane, Ex-Attorney General and defeated candidate for Governor; Mr. S. P. Brooks, defeated candidate for the United States Senate; Cone Johnson, Ex-State Senator and defeated candidate for Governor and defeated candidate for delegate to the Democratic National Convention in 1900, by Senator Bailey, together with Looney, Ex-Attorney General; Neff, Ex-County Attorney; Thomason and Lewelling, candidates for Governor who will be defeated by Joseph Weldon Bailey in the primaries of July 1920.

There is a cloud of others, whose names appear in connection with the two meetings in Dallas and who are ex-office holders, ex-defeated candidates who are now candidates who will soon have to write "defeated" after their names, and chief among them will be the Gov. W. P. Hobby of Blue Ridge fame, who will appear in the "Good Night Scene" clothed in his pajamas, shame and inquiry in company with his late campaign manager.

Hon. Joseph Weldon Bailey, Ex-Senator, Ex-Congressman, has never been defeated for office and I predict a great victory will crown his campaign for Governor in this good year—1920.

Then let our slogan be: Back to the Constitution; back to the democracy of Jefferson, Jackson, Coke and Sul Ross; America first and forever.

Yours very truly, W. T. HEFLEY.

More Outlets--- MORE SERVICE

If you haven't electricity in your home and on your farm you should take steps to install it, by all means. If you have it, make all possible use of it. Too many people, with all the conveniences of electricity at hand, fail to appreciate the value of duplex or double outlets.

ELECTRICITY FOR COMFORT

To get full comfort from your electricity, save yourself the discomfort of doing without some appliance you wish to use. Do not be handicapped by only one outlet when you need more...

Extra outlets can be installed at small expense—and with large dividends in extra comfort. They make it possible to use any appliance without the bother of removing light bulbs, or to use two appliances at the same time if desired.
